CSS	Material UI, CSS, Bootstrap
Other	Storybook.js, Webpack, NPM, AJAX, Agile Methodology, Lodash, AgGrid, Highcharts

Professional Experience

Capgemini

Mar 2024 – June 2026

Senior Software Consultant

- **Morgan Stanley Client:** Built core features for X42 Site Builder, an internal platform-building tool, using React.js and JavaScript, with a focus on reusable and scalable UI components.
- Improved state management by implementing a React Context-based framework and custom hooks for efficient widget lifecycle handling.
- Designed and implemented a publish-subscribe (Pub/Sub) model to support real-time communication and event-driven interactions across UI components.
- Enhanced platform stability and user experience by troubleshooting legacy code issues and delivering features aligned with trading workflows.
- Conducted technical interviews for React roles and mentored new team members on the X42 component library and Microsoft processes.
- Led the frontend migration of legacy AngularJS applications to React.js, modernizing 2 key platforms with ~25 tools used by stakeholders.

Environment: React.js, JavaScript, Highcharts, AG Grid, Atlassian Jira, Storybook.js

Azent Overseas Education Ltd.

May 2022 – Feb 2024

Software Engineer

- Admission Box (B2B Student Counseling Platform) development of the product from inception to a mature solution
- Developed core features including Authentication (Sign In, Sign Up, Password Reset), Online Registration, and Application Navigation/Routing.
- Developed reusable UI components using React.js and Storybook.js
- Resolved production issues, performed code refactoring, and ensured adherence to coding best practices.
- Collaborated with stakeholders, participated in sprint planning, and delivered business requirements effectively.

- Contributed to Node.js backend services through bug fixes and feature enhancements.
- Leveraged Apache Kafka to support event-driven workflows and decouple backend service interactions.

Environment: JS, React.js, Redux, Storybook.js, Material UI, HTML, CSS, Agile, CI/CD, Node.js, Kafka

UBS India Private Ltd.

Mar 2018 – Dec 2020

Vendor: Cognizant Technology Solutions, Mar 2018 – Sep 2019

Software Engineer

- Developed and enhanced Spring Boot applications supporting transaction management, risk assessment, reserve calculations, and regulatory reporting.
- Designed and implemented REST APIs for financial workflows and integration with downstream systems.
- Built and consumed microservices to facilitate secure data exchange across multiple banking and financial systems.
- Performed code reviews, debugging, performance optimization, and application support activities to improve system stability and maintainability.
- Participated in application design discussions, code reviews, debugging, and Agile SDLC activities.
- Contributed to CI/CD pipelines, deployment activities, and release support in enterprise environments.

Environment: React.js, Redux, Java, Spring Boot, Microservices, REST APIs, Hibernate/JPA, SQL, Maven, Git, CI/CD

Edelweiss

Jun 2017 – Feb 2018

Business Process Analyst

- Acted as a liaison between business stakeholders and technology teams, translating business needs into scalable technical solutions.
- Gathered, analyzed, and documented functional and non-functional requirements.
- Collaborated with cross-functional teams to design solutions aligned with business objectives and organizational goals.
- Presented recommendations, project updates, and key findings to stakeholders.

Environment: MS.Excel, Notion, Atlassian Confluence, Jira, MS. Word, XMind

Projects Undertaken

Personal finance Planner – Bsc.IT

End to end fully functional Application including modules like risk calculator, SMS generation, data capture

Tech stack : VB.Net , MySQL

Chat Application – Bsc.IT

Built Chat Application in Java that contained features like user authentication, seamless chat interface, chat enabled with Emojis, using web socket connection for user sessions. Backend built using MySQL.

Food Delivery App -- Personal Project

Built responsive food ordering application in the MERN stack -MongoDB, Express.js, React, Node.js

Certifications

Oracle Certified Professional, Java SE 6 Programmer (OCJP), 2013

Full Stack Web Developer, MERN Stack, Edureka, 2022

Education

MBA Finance from University of Mumbai (Masters of Management Studies), 2017

B.Sc.IT from University of Mumbai -- 74% (Bachelors in Information Technology), 2012

Hobbies & Interests

Geo politics, Reading novels, Music, and Dance
